BULB BOOK

of selected

Tulips, Hyacinths, Narcissi, Crocusses and Miscellaneous Bulbs

"Every Garden Means a Home"

Michigan Bulb Propagating Co., Inc.
"Oldest Growers of Dutch Bulbs in America"
Byron Center Michigan, U. S. A.
Established 1914
From Grower to Consumer

All bulbs offered in this list are the products of our own Nurseries, located at Byron Center, Mich. For thirteen years we have grown and marketed bulbs direct to the consumer and an ever increasing patronage has caused us to incorporate in order to expand our business. This year our plantings are much larger than ever before and we sincerely hope that we may be able to fill all the orders for this season. Due through late ordering we were unable to fill many orders last year and with regret had to disappoint many customers. To order immediately up receipt of this catalog is to insure you of prompt delivery for fall planting.

Sincerely yours,

MICHIGAN BULB PROPAGATING CO. Incorporated

An Invitation to the Flower Loving Public

All flower lovers should make it a point to visit us at any time during the latter part of April and May when our acres of Tulips, Hyacinths and Narcissi are in full bloom.

Exact location of our farm is seven miles south of the city of Grand Rapids. To reach farm by auto, take Division Avenue, Division Road or M 13, and continue seven miles straight south. Busses operating from Grand Rapids to Kalamazoo will take on or discharge passengers at the front gate of our nurseries. We will at all times be glad to show visitors about the place, whether they wish to purchase bulbs or cut flowers or merely wish to look around.
SELECTED MICHIGAN GROWN HYACINTHS

Our hyacinths have been carefully selected both for their hardiness and for their color quality. We offer them in two sizes, medium and large size. The first we recommend for bedding purposes and the latter for indoor culture. NOTE: Planting instructions are sent with each shipment of bulbs, by carrying out the simple rules our bulbs cannot fail.

MICHIGAN GROWN TULIPS

Tulips are our specialty, we grow acres and acres of them. For Best Results they should be planted before the middle of November. The letters E, M, and L, following each variety their relative earliness of blooming. E indicates Early; M, medium; L, Late, although, with a few exceptions, most varieties bloom about the same time when planted outdoors, the late ones coming into bloom when the early ones are fully out. Planting instructions are sent with each order. SIX LEADING VARIETIES FOR INDOOR OR OUTDOOR CULTURE.

No. 9. LA REINE M. White shaded pink when in full bloom. One of the most popular for forcing or bedding $0.55 $4.00
No. 10. YELLOW PRINCE, M. Clear golden yellow with narrow red fringe, splendid for forcing or bedding 0.60 4.25

No. 102. GRAND MIXTURE, Including all the above colors............................................ 45 3.00

**MAYFLOWERING OR COTTAGE TULIPS**

Though somewhat shorter in stem than the Darwins, this class of tulips is highly recommended for bedding, especially where close planting is wanted. They comprise nearly all colors, are excellent for cut flower work, and may be planted during October or November.

**WE START WITH THE SIX LEADING VARIETIES**

No. 147. BELLE ALLIANCE. Striped pink very double .60 4.00
No. 148. YELLOW ROSE. Pure yellow, very nice flower .70 4.75
No. 149. ROSE BLANCHE. Pure white .70 4.75

SINGLE NARCISSI OR DAFFODILS

Should be planted not later than October. They are quite hardy and will bloom just before the early tulips come out or slightly later than the hyacinths. Narcissi should not be planted in regular beds or borders. A much better effect will be had by scattering them in the lawn or planting in clumps of irregular shape. Most varieties are good for forcing though only the varieties marked G.F.I. should be used for this work. Only the leaders are offered here, all big plump
No. 150. **AJAX PRINCEPS.** One of the earliest for forcing or outdoors, broad primrose perianth, with orange yellow trumpet, G. F. I. ....................................................... 1.00    7.50

No. 173....**MIXED.** Of many shades, for outdoor work...................... .85    7.00
MISCELLANEOUS BULBS

These little fellows are the first to blossom in the spring; long before the daffodils or hyacinths are awake to the fact that winter has gone and spring is here these little fellows thrust their lovely heads through the snow and fairly shout at us that spring is once more in the land. They will grow anywhere, plant them as you please but plant lots of them. Plant in October about 3 inches deep and as close as you please.

Since the embargo on Narcissi and Daffodils has gone into effect, we believe that we have one of the finest and largest collections of Narcissi in America. We wish especially to call your attention to our new Hybrid Narcissi LADY MOORE (Catalogue No. 155). We believe that for show and exhibition purposes LADY MOORE cannot be beat and added to your flower collection will surely win the prize.
